

Child and Adolescent Mental Health Care Program

800 Commissioners Rd. E
Zone B, 8th floor
P.O. Box 5010
London, Ont. N6A 5W9
Telephone 519-667-6607

A referral has been made to the Emergency Diversion Clinic with the Child and Adolescent Mental Health Care Program with the Children's Hospital.

The Emergency Diversion Clinic provides services to children and youth experiencing an urgent mental health crisis. Through our Emergency Diversion Clinic, a child or youth can receive a **one-time virtual psychiatric consultation appointment with recommendations made back to your family physician**. Up to three telephone follow-up appointments with a social worker may be offered with this service for the purpose of completing a safety plan and reviewing coping skills that may be beneficial to you and your child or youth.

A team member will contact you within one to two business days of the referral being received.

Should we need to leave a message we require a response within one business day or your referral to the Emergency Diversion Clinic will be closed. If you do not have a voice message service, you may call 519-685-8500, ext. 52309 within one business day of your emergency room visit to inquire about your referral. **Due to the urgent nature of this service, you will be given the next available appointment time. We are unable to accommodate changes to the appointment.** When your case is closed, please follow up with your family physician.

If you believe you are in crisis, please reach out to your local crisis service or visit your nearest emergency room. Please be aware the following agencies are available to offer treatment in your area:
