eReferral – How It Benefits You

- **Integration with most EMRs** allow you to send referrals quickly and receive updates within your EMR
- Standardized referral forms are **populated automatically** with patient information from your EMR and include **integrated clinical guidelines** to support best practice
- Discover services and programs to refer to using the **map-based directory**, complete with wait times where available
- Easy and secure in-solution communication **reduces administrative tasks**, such as the need to make follow-up calls
- **Patients are included:** they can confirm appointments online and choose to receive email notifications, which include referral status and appointment details
- **All costs are covered**, including training and set-up

97%

Of patients said email notifications improved their referral experience*
